International Society for Technology in Education Announces Results of 2010 Board Elections

Washington, D.C.--The International Society for Technology in Education (ISTE(r)) has announced the results of its 2010 board election. ISTE members elected five new board members and re-elected three.

Newly elected to the board are the following:

Affiliate Representative Position:

Mike Lawrence is executive director of California Computer-Using Educators, Inc., Walnut Creek, California

At-Large Representative Position:

Julie Evans is CEO of Project Tomorrow, Irvine, California.

PK-12 Schools Representative Position:

Gwyneth Jones is a teacher librarian and technology specialist at Murray Hill Middle School in Laurel, Maryland.

Special Interest Group Representative:

Howie DiBlasi is CEO of Digital Journey in Georgetown, Texas

Teacher Education Representative:

Arlene Borthwick is department chair and professor for integrated studies in teaching, technology, and inquiry at National College of Education at National-Louis University in Chicago, Illinois.

Re-elected to the board were:

At-Large Representative Position:

Holly Jobe is the project manager of Classrooms for the Future for the Pennsylvania Department of Education in Flourtown, Pennsylvania

Corporate Representative Position:

Eileen M. Lento is lead K-12 strategist for Intel Corporation in Rockland, California.

School District Administration Representative:

Kara Gann is the information technology program administrator for Laramie County School District #1 in Cheyenne, Wyoming.

The new board members will take office in June at a board meeting held in conjunction with the ISTE 2010 conference and exposition (formerly known as NECC) in Denver. Board officer elections will take place at that time as well. Helen L. Padgett from Arizona State University SkySong will continue as board president for 2010-2011.

About ISTE

The International Society for Technology in Education (ISTE) is the premier membership association for educators and education leaders engaged in advancing excellence in learning and teaching through innovative and effective uses of technology. ISTE is the trusted source in

education technology for professional development, knowledge generation, advocacy, and leadership for innovation.

ISTE's annual conference and exposition, formerly NECC, is one of the world's premier educational technology events. ISTE is also home to the NETS, education technology standards that deliver a roadmap for global digital-age learning skills for students, teachers, and administrators.

ISTE members include individuals, regional and international affiliate organizations, and corporations. With its affiliate network, ISTE represents more than 100,000 education leaders and emerging leaders throughout the world. www.iste.org
