

# EDUCATORS RISING

CALIFORNIA

## 5 THINGS TO DO WITH YOUR EDUCATORS RISING CHAPTER

1

### PARTICIPATE IN NATIONAL AND STATE COMPETITIONS

Demonstrate your leadership and teaching craft at real-life competitive events. Measure your creativity, skills, and initiative against high standards and your peers from across the state and country. There are competition categories for individuals and groups!

2

### SIGN UP FOR THE EDUCATORS RISING VIRTUAL CAMPUS

Visit [educatorsrising.org](http://educatorsrising.org). You will have access to many free resources including Educators Rising Hangouts and videos of lessons taught by National Board Certified teachers.

Each month, Educators Rising premieres a new Hangout with exciting guest speakers. These hangouts are archived and available for you to view at any time. Previous topics include information about picking the right teacher prep program, connecting with students, student creativity, National Board Certification, and more!

3

### PARTNER WITH ANOTHER CLUB OR CLASS AT YOUR SCHOOL

Find a club or class that is dedicated to academic improvement or enhancement, and help the cause by tutoring or mentoring student members.

4

### GAIN REAL-LIFE TEACHING EXPERIENCE

Partner with a local elementary school or after-school program to gain real-life teaching experiences. Use the YouthTEACH2Learn curriculum to learn how to develop lesson plans and prepare for the teaching experience. Contact us to learn how to get started.

5

### SHARE YOUR IDEAS WITH US!

Does your chapter do something extraordinary, or do you have a unique idea for a chapter activity? Send your ideas to [innovation@tomorrow.org](mailto:innovation@tomorrow.org), and your activity could be featured in the Educators Rising California newsletter.
