

Project Tomorrow® is pleased to announce the

2015 Innovation in Education Awards

The Project Tomorrow Innovation in Education Awards recognizes schools, educational leaders, and students for their innovative uses of science, math and technology in the classroom and community. The 2015 Innovation Award categories are:

Innovative Schoolwide Program in Science, Math and Technology
\$1,000 Winner Award, \$250 Finalist Award

High Impact Teacher in Science, Math and Technology
\$1,000 Winner Award, \$250 Finalist Award

Emerging Student Innovator in Science, Math and Technology
\$1,500 Winner Scholarship, \$500 Finalist Scholarship

The Project Tomorrow 2015 Innovation in Education Awards will be presented at the 22nd Annual High-Tech Innovation Awards dinner reception in conjunction with OC Tech Alliance's own corporate awards. This high profile event attracts over 300 business and community leaders each year. Award finalists and a guest will be hosted at the reception. Award recipients will receive regional and national recognition through both online and traditional media outlets. In addition, all finalists will receive funding to use to expand a science, math or technology program in their classroom.

Eligibility

Nominations may be self-submitted or may be submitted by a district and/or school staff person, supporting organization such as a PTA unit, parent advisory committee, or youth-based organization(s).

Schoolwide: Orange County public, private, or parochial school which demonstrates innovation in science, math or technology through a schoolwide program. (Award is presented to school principal)

Teacher: Orange County classroom teachers whose innovative uses of science, math or technology have significantly impacted their students' academic achievements

Student: Current eighth grade or freshman, sophomore, and junior Orange County high school students who have used math, science or technology resources to address a problem in their school (or community)
