   - Other

6. **Open Ended: What mobile apps or cloud-based programs have you used with your mobile device to help you with learning or schoolwork? List the ones that you use most often.**

7. **How much do you agree or disagree with this statement? Being able to use an Internet-connected mobile device in class this year will help me become a better student.**
   - Strongly disagree
   - Somewhat disagree
   - Somewhat agree
   - Strongly agree

8. **Since the beginning of the school year, how often have you used a <u>school provided mobile device</u> to help you with learning or schoolwork in these classes or subjects?**

Scale:

- Daily or almost daily
- A few times a week
- A few times a month
- Once in a while
- Rarely or never

Options:

- Career Technical Education
- Computer Science/Technology Applications
- English
- English as a second language
- Math
- Religion
- Science
- Social Studies/History
- Visual and performing arts
- World or foreign languages
- Other electives

9. **Since the beginning of the school year, how often have you used <u>your own personal mobile device</u> to help you with learning or schoolwork in these classes or subjects?**

Scale:

- Daily or almost daily
- A few times a week
- A few times a month
- Once in a while
- Rarely or never

Options:

- Career Technical Education
- Computer Science/Technology Applications
- English
- English as a second language
- Math
- Religion
- Science
- Social Studies/History
- Visual and performing arts
- World or foreign languages
- Other electives

10. **What do you think will be the benefits for you of being able to use a mobile device in class this year? As a result of using a mobile device in class this year, I will be…**
    - Applying what I have learned to practical problems
    - Collaborating with other students more
    - Communicating with my teacher more often
    - Getting better grades and test scores
    - Developing creativity skills
    - Developing critical thinking and problem-solving skills
    - In control of my learning
    - Learning at my own pace
    - Learning in a way that fits my learning style
    - Learning skills that will help me in the future
    - More comfortable using technology and digital tools for learning
    - More likely to complete homework assignments
    - More interested in what I am learning in class
    - Participating more in class discussions
    - Spending more time mastering a skill or learning something
    - Taking ownership for my learning
    - Understanding what I am learning better
    - Using time at home for extended learning
    - None of the above
    - Other

11. **Open Ended: What do you think are the negative consequences, if any, of students using mobile devices for learning in class? Be honest – we are interested in your thoughts.**

12. **How often are you using a mobile device, either school provided or your own, outside of class time, to help you with homework, school projects or assignments?**
    - Daily or almost daily
    - A few times a week
    - A few times a month
    - A few times in a semester
    - Rarely or never

13. **Where are you most of the time when you are using that mobile device to help you with homework, school projects or assignments (not counting time spent in class)?**
    - In the school library or media center during the school day
    - At school – before the start of class
    - At school – after school day has ended
    - Where I live
    - Where other family members live
    - At a friend's house
    - At the public library
    - After school recreational or tutoring center
    - At a fast food restaurant or coffee shop
    - On a school bus or public transportation
    - None of the above
    - Other

14. **How important do you think it is for every student to be able to use a mobile device during the school day to support schoolwork?**
    - Not important
    - Important
    - Very Important

15. **Open Ended: Your school is interested in improving your learning experiences in your classes. What recommendations do you have for your school principal or teachers about how to use mobile devices more effectively to support students' learning?**
