About Speak Up International

Speak Up is an initiative of Project Tomorrow, a non-profit leader in education focused on students to have greater involvement in their education. Speak Up International is a collaboration between BrainPOP, Project Tomorrow and ISTE to extend the acclaimed Speak Up Research Project to international schools worldwide.

The Speak Up International programme will provide authentic feedback from users and information for all participating international schools on using digital tools and resources, as well as give students, teachers, and school administrators a voice in these important discussions on the future of learning around the world.

Surveys available for:

Students

Teachers

Administrators
